

If the main thing you are going to be asked to do in this class is to argue for your views, and respond to arguments against your views, you need to know something about arguments. The study of arguments is called **logic**.

A first step in grasping the basic principles of logic is the mastery of four
(semi-)technical terms.

Arguments consist of one or more **premises** and a **conclusion**. The conclusion is what you are arguing for; the premises are the (alleged) basis for that conclusion.

The two key terms used in the evaluation of an argument are **valid** and **sound**.

your views, and respond to arguments against your views, you need to know
