

Doubt $\rightarrow$ No Belief

If you cannot rule out a situation which would make P false, you should not believe P.

There are situations which I cannot rule out which would make beliefs formed on the basis of sense experience false.

You should not form beliefs
on the basis of sense
experience.

Sense experience is your
only source of
information about the
world outside of you.

You should not form any
beliefs about the world
outside of you.
