**moral
relativism**

One might use this to construct the following argument against moral relativism:

Note that premise (1) does not just say that, as **we** use “right” and “wrong”, slavery is wrong. It says that the claims which anti-slavery cultures make in **their** language are right, and that the claims which pro-slavery cultures make in **their** language are wrong.

1. There is some sense in which anti-slavery cultures were right about the moral status of slavery, and pro-slavery cultures were wrong.
2. If moral relativism is true, there is no sense in which anti-slavery cultures were right and pro-slavery cultures were wrong.

C. Moral relativism is false. (1,2)
