

One answer is: Yes.

Physical properties can
cause phenomenal
properties, **and**

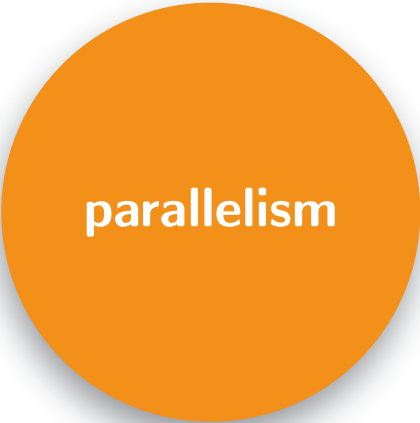

phenomenal properties can
cause physical properties.

A second answer is: Yes.

Physical properties can
cause phenomenal
properties; **but** phenomenal
properties cannot cause
physical properties.

A large red circle with a soft drop shadow, containing the word "interactionism" in white lowercase letters.

interactionism

A large, solid orange circle serves as the background for the text.

parallelism

**epi-
phenomenalism**

ANN'S BLOOD SUGAR
FALLS BELOW 80
MG/DL

ANN FEELS HUNGER,
AND DECIDES TO
WALK TO THE
FRIDGE.

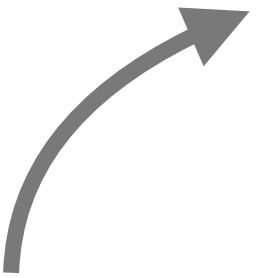

ANN WALKS TO THE
FRIDGE AND OPENS
THE DOOR

ANN HAS A VISUAL
SENSATION OF AN
APPLE AND DECIDES TO
EAT IT.

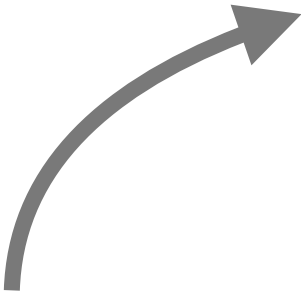

ANN REACHES OUT FOR THE
APPLE AND BRINGS IT TO
HER MOUTH AND TAKES A
BITE.

ANN TASTES THE APPLE
AND FEELS LESS
HUNGRY .

This might push one towards the initially surprising epiphenomenalist position. Unlike the parallelist, the epiphenomenalist does not think of the physical and mental realms as entirely disconnected. And unlike the interactionist, the epiphenomenalist does not have to think that physics must be supplemented with an additional mental 'force.'

But peripheralism leads to a puzzle.

causaphenomenal

One answer is: Yes.

causal physical properties.

properties, and

phenomenal properties can

Physical properties can

properties; but phenomena

causal phenomena

properties cannot cause

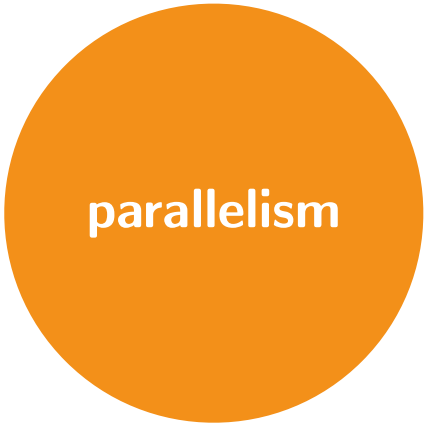

A second answer is: Yes.

physical properties.

Physical properties can

interactionism

A large, solid orange circle serves as the background for the entire image. Centered within this circle is the word "parallelism" in a white, lowercase, sans-serif font.
