

the basic
argument

allowable
evils

A large, solid orange circle serves as the background for the text.

what is
omnipotence?

the
argument
reformulated

God is omnipotent.

God is wholly good.

Some evil exists.

If something is wholly good, it always eliminates as much evil as it can.

If something is omnipotent,
it can do anything.

So we can replace these two claims with the following three:

If God exists, then God is
omnipotent.

If God exists, then God is
wholly good.

God exists.

Soiree vivixists.

good, it always reminds

If something is widely

as niches in air.

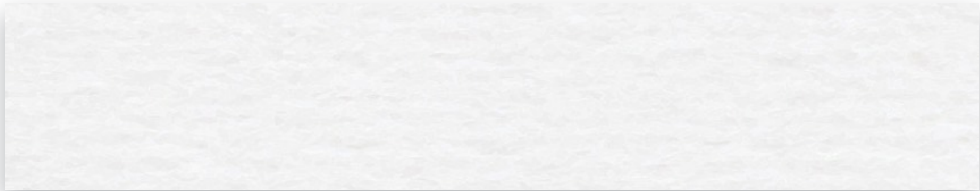

If something is on it,

it can do anything.

If God exists, then God is

with 11y good.

If God exists, then God is

God is .

9*. Some points less

evildoers.

the basic
argument

**allowable
evils**

A large, solid orange circle serves as the background for the text.

**what is
omnipotence?**

So attention naturally focuses on premise (5).

as in the visit card.

good, it always reminds

5. If something is wholly

**allowable
evils**

2: If something

any possible

cairibiriing about

is important, it

the 1990s, the number of people with a mental health problem has increased by 50% (Mental Health Foundation 2000).

There is a growing awareness of the need to address the needs of people with mental health problems in the community. The National Institute for Mental Health (NIMH) has identified the need for a 'new paradigm' in mental health care, one that is based on recovery, self-help, and community support (NIMH 1998). The NIMH has also identified the need for a 'new paradigm' in mental health care, one that is based on recovery, self-help, and community support (NIMH 1998).

The NIMH has identified the need for a 'new paradigm' in mental health care, one that is based on recovery, self-help, and community support (NIMH 1998). evil as God said. (4,5)

6. If God exists, then God

what is
omnipotence?

the
argument
reformulated

There are two especially important arguments against belief in God.

God. What remains is to show what

MacKie says, will all look quite

We now have six claims which, as

they lead to contradiction.

plausible to someone who believes in

If something is omnipotent,
it can do anything.

If God exists, then God is
omnipotent.

If God exists, then God is
wholly good.

Some examples.

If something is widely

as nichievil as it can.

good, it always reminds

If something is omnipotent,
it can do anything.

If God exists, then God is
omnipotent.

If God exists, then God is
wholly good.
