Rewarding
God exists

God does
not exist

IOS

$$\text{Pr.} = m$$

$$\text{Pr.} = 1 - m - n$$

Expected
utility

$$\text{Pr.} = n$$

No reward
God exists

Let's call the hypothesis that God will give eternal
reward to all "Generous God."

Objection 3: God might
give eternal reward to
believers and
nonbelievers alike.
